

TUTORIAL

EMBED WORDPRESS ON PORTFOLIO

This tutorial guides you to embed your WordPress account on ePortfolio

1. Click on '**External**' and select '**External Feed**' option- drag and drop it at your desired space.

2. A pop-up window titled '**External feed: Configure**' gives you the options to add block title. The next option- **Feed location** is where you would paste the URL of your site and type **feed/** at the end of the URL.

TUTORIAL

External feed: Configure

Block title

If you leave this blank, the title of the feed will be used.

Feed location *

URL of a valid RSS or ATOM feed

Insecure SSL mode No

Disable SSL certificate verification. This is not recommended but might be necessary if the feed is served using an invalid or untrusted certificate.

HTTP username

Username (HTTP basic authentication) needed to access this feed (if required)

HTTP password

Password (HTTP basic authentication) needed to access this feed (if required)

Items to show

Between 1 and 20

Show feed items in full No

Whether to show a summary of the feed items or show the full text for each one.

Retractable

Select to allow this block to be retracted when the header is clicked.

Note: Copy and paste the URL from your site page and not the Home page of WordPress.

TUTORIAL

3. Click **'Save'**. You can now view all your posts as RSS feed which will be automatically updated with every new post.
