

**Psychiatric Mental Health  
Nurse Practitioner, MS  
2024-2025**

**OVERVIEW**

The MS PMHNP is a part-time program that incorporates a blend of synchronous and asynchronous online coursework. In general, students will meet synchronously about 5-6 times per semester. Regarding clinical assignments, we encourage students to participate in the identification of a site prior to their clinical year. If they are unable to identify a preceptor, we will work with the student to make the arrangements.
