Navigation

You use the outer ring of the Navigation cluster to scroll through menus. You use the inner **Select** button of the Navigation cluster to select menu items.

Each item in a menu has an index number. You can enter the index number with the keypad to select the menu item.

Hold/Resume

1. Press the **Hold** button to place a call on hold. The held call shows the hold icon and the line button will flash green.
2. To resume a call from hold press the **Hold** button.

Transfer

1. During a call, press the **Transfer** button. This puts the call on hold and gives you dial tone.
2. Dial the number or office extension to which you want to transfer the call.
3. When it rings on the other end, press **Transfer** again. Or, when the party answers, announce the call and then press **Transfer**.

NOTE: If the party refuses the call, press the **End Call** soft key and then the flashing line button to return to the original call.

Handling Multiple Calls

Taking a Second Inbound Call

When you are on one call and second call rings, you will hear an audible notification, see the caller ID on the phone screen and see the line button for the incoming call flash amber. To accept the call, press the flashing line button. Your original caller will be put on hold automatically and that line will flash green.

Placing a Second Outbound Call

1. To place a call on hold and make an outbound call:
2. Press the **Hold** button to place the first call on hold.
3. Press the **New Call** soft key and dial the second number.

Conference Calls

1. With a caller on the line, press the **Conference** button.
2. Dial the **desired number** or **extension**
3. After the called party answers, press the **Conference** button again. All parties will be on the call. Repeat these steps until all parties are conference in.

Joining Two Calls

The **Join** soft key allows a user to connect two separate calls on the phone into a conference call.

Press the **Join** soft key.

Call Park

Park a call feature allows you to park a call so that someone else can retrieve it from another Cisco phone (e.g. a phone at a co-workers desk or in a conference room).

1. With a caller on the line, press the **Park** soft key.
2. Note the extension displayed on your screen.
3. To pick up a parked call, dial the extension where the call was parked.

Diverting a Call to Voicemail

Divert allows you to send an incoming call directly to voicemail on demand.

When a call is ringing on your phone, press the **Divert** softkey.

Call Forward

1. With the handset down, press the **Fwd All** soft key. You should hear two beeps.
2. Enter the number to which you want to forward all of your calls, or press the **Messages** button if voicemail is the target
3. To cancel call forwarding, press the **Fwd OFF** soft key.
